Principal George Sepsakos participated in the virtual 2020 *PLANSPONSOR* National Conference. In this article, *PLANSPONSOR* summarizes his panel on the Coronavirus Aid, Relief and Economic Security (“CARES”) Act, and its impact on retirement plan sponsors.

Commenting on agency guidance concerning the SECURE Act, George is quoted explaining, “We definitely have seen folks focus more on the CARES Act than on the SECURE Act due to the urgency of the moment, but, recently, folks are looking at retirement income issues. Providers that have not focused on PEPs [pooled employer plans] will be behind, because, in the last two months, there is more emphasis on that among many of our plan sponsor clients.”
